## ALLIES WANT TROOPS IN FRANCE

### Recommend Guardsmen Mobilized be Sent to Front

Urges State Troops Be Ordered To Europe In Small Numbers Aboard Every Ship That Sails So They May Be Trained Within The Sound Of The Big Guns. Assured That They Will Fight Under Their Own Colors As American Units.

#### GOVERNMENT MUST APPROVE PLAN

Allies' Recommendations Intended to Wean This Country Away From Idea of Training at Home

#### CANADIANS A CASE IN POINT

Their Troops Had to Prepare For Fighting For Five Weeks Before They Entered a Battle

By GEORGE R. MARTIN  
(U. P. Staff Correspondent.)

Washington, April 30.—It will be only a matter of a few days before the United States militia companies, now mobilized, are on their way to Europe and less than six weeks before they are actually in battle with the Germans, if the allies' recommendations to the American government today are approved by the administration.

The allies want American troops in batches of several hundred to go at once to Europe aboard every ship that sails. This will obviate the necessity for concentration of enormous numbers of men in any one place and aid in the food and munition problem.

They want National guardsmen who were at the border because they feel these men are equipped by their border work to go at once to the west front and train within the sound of the big guns so they will be tempered for battle by no longer than five weeks.

These American troops, the allies have assured the United States, will fight as American units—under their own colors.

The allies' recommendations were intended to wean this country away from the idea that before American troops go abroad they must be trained here for months. They pointed to the failure of the one and one-half year of training for the Canadian troops.

Canadian troops after this long course were sent to Europe in large numbers and while considered ready to fight, had to go through the five weeks training in the sound of the big guns.

The company will be equipped as rapidly as possible. Capt. Kiplinger will continue the drills in the court house this week and it is hoped to have the company in shape for the call. An effort will be made to recruit the company to full war strength. The officers believe this will be easy now that the conscription bill has passed.

#### EMPHASIS ON FOOD PROBLEM

A. L. Gary Says People Should Produce More, Consume Less and Waste Nothing to Win

The Woman's Relief Corps presented a flag to the First Baptist church with impressive ceremony yesterday afternoon. The W. R. C. attended in a body. Mrs. Cornelia Lyons made the presentation speech in behalf of the woman's organization and it was accepted by James Gartin for the church.

Short speeches were made by Dr. D. Ira Lambert and the Rev. C. M. Vocum. A. L. Gary made the principal address, emphasizing the need of producing more, consuming less and wasting nothing since the United States is at war with Germany.

The program opened with a march played by Mrs. Ernest Sanders on the piano and the singing of "America" by the audience. The Rev. J. T. Aikin pronounced the invocation and Mr. Stiff, who was visiting here yesterday, made the address of welcome in place of Mrs. Fred Arbuckle. Lois Ethel Steffy read Wilbur D. Nesbit's poem, "Your Flag and My Flag," and Dwight VanOsdel played a cornet solo, "The Two Grenadiers." He was accompanied by C. E. Parke at the piano. Russel Perin spoke a piece, "The Flag," and Miss Mildred Stewart gave a reading, "The Naming of Old Glory" by James Whitcomb Riley. Mrs. Inez Craig sang a solo, "America the Beautiful" and Miss Kathleen Hogsett sang "Battle Hymn of the Republic" accompanied by C. E. Parke on the piano.

In presenting the flag for the W. R. C., Mrs. Lyons said she was glad to belong to womanhood because a woman had made the first flag. She alluded to the red stripes, "made

#### DOUGLAS MORRIS REFUSES TO SERVE

Governor Goodrich Will Have to Appoint Man in His Place on Military Registration Board

#### MEETING OF OFFICIALS TODAY

George B. Moore, Jr., clerk of the circuit court and Voorhees Cavitt, sheriff were in Indianapolis this afternoon, attending a conference of the conscription boards of the various counties with Governor Goodrich. The governor late Saturday named the sheriff and clerk along with some prominent citizen in each county to form the conscription boards, which boards will have charge of the registration of all men as classified in the conscription bill.

Judge Douglas Morris was named as the third member of the board for Rush county. Judge Morris found it impossible to serve and wired his resignation to the governor. Judge Morris stated today that he believed the third member of the board should be some one with a knowledge of clerical work as the work attached to this position will call for the classification of the men according to their ages and he did not feel that he could serve for the best interests of the state. It was expected that Governor Goodrich would name his successor today.

#### DEBATE ON DRAFT BILL IN PROSPECT

Senator LaFollette is Ready to Introduce Resolution Calling For a Referendum

#### RULES OF CONGRESS BLAMED

Democratic Senators Will Make Determined Effort to Get Action Immediately on Bill

#### IT PASSES BOTH BRANCHES

Conscription Wins by Overwhelming Majorities But Differences Must be Composed

By ROBERT J. BENDER  
(U. P. Staff Correspondent.)

Washington, April 30.—Rules of congress have precipitated a tangle and again throws the conscription bill into a doubtful state. Forced to vote again on the measure through one of the most unusual parliamentary situations in the history of congress, the senate faces the possibility of prolonged debate on the bill before its passage.

Democratic leaders will make a determined effort to get action immediately and say they are sure of success. Senator LaFollette is the stumbling block. He is ready to introduce his amendment calling for a referendum vote on conscription. It will take an hour to read his amendment and he may devote hours more to a discussion of it.

Senator Gronna also has an amendment providing the stopping of grain distribution to breweries and distilleries—and other subjects which may take hours.

The bill today seems in the same position as it was a week ago.

The final roll calls late Saturday night on the selective conscription bill, which passed both branches of congress, brought into line behind the bill many senators and representatives who had fought for the volunteer system until routed by decisive defeat of volunteer amendments earlier in the day in both houses. The senate, which had voted down the volunteer plan, 60 to 18, passed the bill by a vote of 81 to 8. In the house the vote against the volunteer plan was 313 to 109, and that by which the bill itself was passed was 397 to 24.

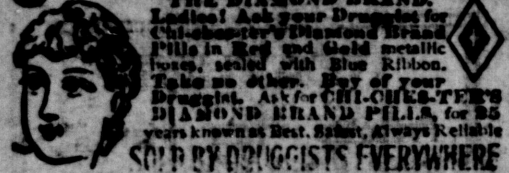

As passed by the senate, the measure provides for the draft of men between the ages of 21 and 27 years, while in the house measure the age limits are fixed at 21 to 40. This and lesser discrepancies will be thrashed out in conference early this week, so that the bill may be in the hands of the president as quickly as possible. The war department already has completed plans for carrying it into effect.

Both senate and house adopted amendments just before the final roll calls which would greatly increase the pay of enlisted men during the war. The house provision would make their pay \$30 a month, and that approved by the senate would fix it at \$29 a month. The present pay is only \$15.

In the house at the last moment Chairman Fitzgerald of the appropriations committee objected vigorously to the appropriation of \$3,000,000,000 carried in the bill for the expenses of the new army, and the section finally was eliminated entirely. Mr. Fitzgerald declared that to place this vast sum in the

## OUR SODA FOUNTAIN POLICY—Past and Present

FOR YEARS we have served the best quality sodas, ice cream and drinks obtainable in this city. We sincerely believe that we have given the people of Rushville ten cent goods for five cents. We have charged up the deficit to advertising as we did not see how we could spend this amount of money to better advantage. No matter where you go now you will pay ten and fifteen cents for ordinary quality sodas, etc. With the advance in cost of raw materials such as sugar, ice cream, cocoa, etc., we feel that we would rather maintain our Quality Reputation and give Rushville a Strictly Sanitary Service as well as the price of Ten Cents. Nothing is too good for your stomach's sake and you do like to be served with clean soda glasses and you will be if you get it here, as we use one glass to each individual customer then throw it away.

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called frezzone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezzone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

## TAX-PAYING SEASON IS IN ITS LAST LAP

Final Week Begins With Rush Today After Saturday Proves to be Disappointment

### OFFICE TO BE OPEN NIGHTS

The county treasurer's office will remain open Friday and Saturday night of this week and Monday night of next week to give the city people and factory workers an opportunity to pay their taxes. Next Monday night will be the last chance to pay taxes for the spring installment.

The final week of the tax-paying season started this morning with a rush. There is a large sum to be collected. The office will close at five o'clock in the evening and on the three nights that it is to be open will re-open at seven o'clock.

The office is bothered with the usual noon hour rush. This is one of the worst times to pay taxes as the taxpayers believe there will be no rush at this time and naturally create a jam about the doors.

## GAINED TWENTY-FIVE POUNDS IN TWO MONTHS

KNOWING THAT SHE WAS GOING DOWN IN WEIGHT, HEALTH AND ENERGY, THIS LADY FINALLY FOLLOWED THE ADVICE OF FRIENDS AND TOOK PEP-SINCO.

For many years Mrs. G. suffered with indigestion. She could get no help. She doctored and took most every stomach remedy her friends recommended, but got little relief. She lost in weight till she was apparently nothing but skin and bone. What she ate as a rule caused misery and pain. She would faint and was seldom without headache. Nothing agreed with her. She would get up in the morning with a bad taste-coated tongue and feeling of dizziness. The sight—the odor of savory foods nauseated her. She passed the day in misery and went to bed tired, worn-out and hungry.

This lady read, as you are doing, of Pep-sinco. She heard of Pep-sinco. Her friends used Pep-sinco and were helped, but she thought Pep-sinco was like other stomach remedies, helpful in minor cases only.

She was finally prevailed on to get a small package of Pep-sinco. The first package did her so much good that she continued their use until, after a few weeks, she could eat with a relish ordinary foods.

In exactly two months she came up to her normal weight. Today she is happy and has every reason to be so. Her main trouble was indigestion, and Pep-sinco is the best preparation to be had for indigestion and kindred ailments.

Pep-sinco will help you, if you have the least trouble with your food. Sour stomach, sick headache, bloating, indigestion, biliousness and heartburn are symptoms that Pep-sinco will remedy. Don't doubt another minute, do as this lady did—get a small package and try it today. All druggists have it, or we will send a trial package free of charge if you will send your name to The New Pharmacal Company, 700 Madison, Ohio.

Among the more important amendments, adopted in the house was one empowering the president to exempt from the draft in his discretion persons engaged in agricultural work. Another would require each state to furnish a quota of men apportioned according to population, and still another provides that "no bounty shall be paid to induce any person to enlist" and that "no person liable to military service shall hereafter be permitted or allowed to furnish a substitute for such service."

## The Conscription Bill

Congress has passed the conscription bill. There remains now nothing to be done but the ironing out of differences by a conference committee from both branches. The ages which will be included in the selective draft are yet to be definitely fixed.

The volunteer system failed in the civil war just as it has been proved a failure in the present emergency. At the rate recruits have been responding to the call to the colors, it would have taken two or three years to raise an army of any size. A prolonged campaign for recruits was out of the question. The United States declared war on Germany the sixth of April and an army has to be raised at once.

The whole volunteer scheme is wrong. In a democracy such as ours it is not the place of the patriotic few to do the work of the whole. Many thousands of young men all over the country stood ready to enlist as soon as congress imposed the same obligation on all young men of military age who are physically fit. Mothers and fathers will be resigned to sending their boys to the front when they are assured that their neighbors boys, too, will be obligated to serve their country also. They were never imbued with the idea of having their sons face the cannon's mouth in the defense of the country while other sons of the community remained safely at home.

In a form of government such as ours, all enjoy the blessings of a free country and all should be equally liable to service in defense of the government. The volunteer system penalizes patriotism and puts a premium on "slacking," for the patriot goes to war for \$15 a month and the "slacker" remains at home and earns a living wage.

Since congress has passed the conscription bill, there is sure to be a rush to the colors that will surprise everyone, for each young man will have the satisfaction of knowing that he is not being asked to risk his life while his less patriotic neighbor "slacks" at home. There has been a smoldering resentment of injustice that has held back many a young man who has felt he should go to the defense of his country, but who hesitated because his neighbor, who owes his country the same debt, would remain at

home. If we are to fight a war of humanity we should first make it a war of justice to our own, as congress has very justly done. The blood of young Americans is not thinned with water, but they believe in a patriotism that is founded upon justice and that is best exemplified in universal service.

## What Our Ideals Are

Just at this time there is a grave responsibility resting on the shoulders of the people of the United States. The people of this country are facing some of the greatest problems of their history. We are facing a task that may try our very souls. The fate of the world may turn on whatever action we take. All the inhabitants of the greatest republic in the world need to do is to hold before them constantly the high ideals for which our civilization stands and it will have a share in accomplishing the aims of the government—human safety and human freedom throughout the earth.

We all should remember that the United States is not prosecuting a war of revenge, hatred or conquest, but a struggle for humanity, true to the traditions of the country of George Washington and Abraham Lincoln. When we have established human rights our work will have been completed, but not until then. Only for this have we entered the war; only for this will we contend; but with nothing less than this will we be satisfied.

## A Million Back Yards

What of your back yard? Is it littered up with refuse, or abandoned to weeds?

Plow it up and plant potatoes or other foodstuffs. It may yield only a dozen bushels or so, and as only one back yard its effect upon the national yield would be but an atom.

But if a million back yards were thus tilled, think of the result! Twelve million bushels or more of potatoes or other foods from back yards alone!

And every available foot of ground, wherever found, should receive the same attention.

The president and the nation are appealing to you personally. Let us of this community answer it with instant action.

What would be more attractive in the front yard than a growing bed of lettuce or onions, or tomatoes or beets, or any one of a dozen articles of food? It would be such a symbol of patriotism as the world has never before seen. And the odd moments would do it.

No, Mr. President, our soldiers will not lack for food. Every loyal American will do his or her duty, and that spirit of production will be in daily evidence right here in Rushville and this community. We never follow—we lead.

A wise boob once remarked that "sooner or later every man reaches his lever." Witness, for instance, the former czar of Russia as an expert shoveler of snow.

Uncle Sam a weak sister? Not a bit of it. Seven billion dollars and only trotting. Wait till we strike a gallop.

"Give us this day our daily bread"—and it may even come to that. Plant something.

There are, though, many kinds of slackers—those in the home, for example.

All the world loves a lover—except the fellow who was jilted.

Hoe up and keep hoeing.

## MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

## WOMEN URGED TO PRACTICE ECONOMY

Mrs. McWhirter of Legislative Council Says They Should Raise Standard of Efficiency

## FEWER SOCIAL FUNCTIONS

(By United Press.)

Indianapolis, April 30.—Women of Indiana were today urged to practice economy in use of foodstuffs, by Mrs. Felix McWhirter, president of the legislative council of Indiana women, in a statement through the United Press: "The statement said:

"It is fitting that the Legislative Council of Indiana Women shall raise the standard of efficiency and economy and simplicity of living that will appeal to women of all classes of society.

"The eating of plain food, simply served, less expensive dressing, with fewer social functions, will materially decrease the expense of the home and give real service to the community and the state.

"It is a privilege for us to lend our influence toward making it easier for those who bear the economic burden of the home and to give our sympathetic interest and encouragement to the men upon whom the responsibility of state and national affairs is now resting so heavily."

## KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Rushville case:

A. M. Younger, retired farmer, 828 W. Tenth St., Rushville, says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is bound to have more or less trouble with the kidneys. At times I have a dull ache across the small of my back and it gets weak and lame. Then the kidney secretions are too frequent in passage, causing me to get up at night. Every time I have been this way, I have procured a box of Doan's Kidney Pills at Johnson's Drug Store, and they never fail to relieve me in a short time."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Younger uses. Foster-Penick Co., Buffalo, N. Y.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets when you see them.

**LOCAL DOCTORS GET A REPRIMAND**

Dr. J. N. Hurty Writes to County Health Commissioner, Noting Births Are Not Reported

MARCH RATE 15.6 PER 1,000

This Indicates, State Official Says, That Physicians Are Derelict in Their Duty

Rush county physicians are given a severe reprimand in a letter received today from Dr. J. N. Hurty, secretary of the state board of health, by Dr. Will C. Smith, county health commissioner. Dr. Hurty says there is every reason to believe that all the births in Rush county were not reported in March because the rate was only 15.6 per thousand. He calls attention to the state law compelling the doctors to report deaths, and to the duty of the physician to the parents, in the following letter:

Your birth rate in March was 15.6 per 1,000. This is under 20, and it is almost an invariable sign that all the births of your county were not collected for that month. This matter must be spurred up. It must not be allowed to rest. Indiana will be in disgrace with the U. S. Census unless we can show that we collect 90 per cent of all births. If the physicians of the state of Indiana bring disgrace upon the state, and we are published as being delinquent, then let the sin lie where it belongs.

The physician who does not promptly report the births he attends violates the confidence of his patients and the duty he owes to them, and he also violates the duties he owes to the science of medicine.

You must put forth stronger efforts to collect births. Discuss this matter with the editors of your papers, also with the physicians of your county. It should be your endeavor to spread throughout your county the information that the legal reporting of births is of the utmost importance to the state and also to medical science.

Don't let this matter drop. Call up physicians by telephone and ask them about the births they attend. Tell them the state will be published if better birth records are not supplied. It will not sound very well for the medical profession if the papers all over the country state that the physicians of Indiana are derelict in their duty, yet the U. S. Bureau will certainly do this very thing if better birth reports are not secured.

**PRICE OF STAMPS WILL GO HIGHER**

Two-Cent Denomination Will be Raised to Three Cents to Raise Money for War Purposes

NEW BILL ALREADY DRAFTED

Income Tax Exemption Will be Lowered so Majority of Men in County Will be Hit By It

"Give me a two-cent stamp," says the man who calls at the stamp window in the postoffice a few weeks hence.

"All right, but a two-cent stamp will cost you three cents," replies the man on the other side of the grating.

This is a possibility of the near future in view of the fact that the subcommittee of the ways and means committee of the national house of representatives has included an increase of one cent on two-cent stamps in its war revenue bill which it has drafted and will present to the full committee next week. It is possible, Washington dispatches say, the committee will report the bill to the house the latter part of next week and that it will be unanimously indorsed by both democratic and republican members.

The Chamber of Commerce of the United States of America has sent out a protest against the increase in the price of the two-cent stamps and has suggested substitutes to raise the same amount of revenue. The national organization is conducting a referendum but there will be no way for Rush county citizens to register a protest in an organized fashion because the Rush County Chamber of Commerce has been supplanted by another organization.

The house subcommittee was confronted with the task of levying taxes to provide \$1,500,000,000 in a single year above the ordinary taxes, which are already much higher than usual. The most important tax will be on business. The net result of a week's investigation has been the decision to levy only one tax on business in place of all three forms of taxes now being levied. This is the excess profits tax and it will be levied so as to reach all corporations, firms, co-partnerships and other forms of organization.

None will affect the common people more than the increase of the price of the two cent postage stamp. Second class matter will cost three cents a pound instead of one cent as at present, which will hit the newspaper and magazine publishers. This will bring in a revenue of about \$75,000,000 a year.

The income tax exemptions will be reduced so that it will include the majority of the men in Rush county. For the single man the exemption will be only \$1,000 a year and for the married man, \$1,500 a year. This means that the single man earning more than \$1,000 a year will have to pay a two per cent tax on his income and the married man who makes more than \$1,500 a like per cent. The normal tax will be four per cent on incomes of \$50,000 or more and the highest tax will be near forty per cent on incomes of a million or more.

New automobiles will be taxed at the factory according to their selling price. The only way in which present automobile owners will be taxed will be through a consumption tax on gasoline. This may go as high as 1 cent on a gallon.

Stamp taxes will be assessed on many things, including negotiable instruments, many legal documents, cosmetics, candy, chewing gum, toilet waters and perfumes, patent medicines, staple drugs and the like.

Bank checks probably will be exempted from this tax. Representative Dixon, of Indiana, and other members of the committee oppose a stamp tax on bank checks. No breakfast table taxes will be assessed. Taxes had been proposed on sugar, tea, coffee, etc., but these have been eliminated.

Freight transportation will be assessed heavily, as will transportation tickets of all sorts, including Pullman tickets.

Theater tickets, baseball tickets, football, state and county fair

for charity, will cost more after Uncle Sam levies a 10 per cent. tax. Liquor will pay a heavy toll. Whiskey is now assessed \$1.10 a gallon and probably will pay \$2 a gallon in the future. Beer is now assessed \$1.50 a barrel and probably will pay \$2.50 a barrel.

Soft drinks will have to pay a tax. This concerns chiefly bottled drinks and probably will not apply to unbottled soda fountain products.

Cigarettes, cigars and tobaccos in all forms will be hit by the cost of war. Cigarettes will get it heavily and cigars will pay their share.

Musical instruments of all sorts will be taxed at the factory and glue, a large element in some kinds of candy, will cost more after the new tax is levied in it.

In honor of her week-end guests the Misses Ivonette Wright, Eileen Mills, Margaret Mason, Bertha Elston, Jesse McCoy and Ruth Richards, all of Oxford, Miss Fanny Stiers entertained with a splendidly appointed six o'clock dinner last evening at her country home south of this city. Aside from the guests of honor Scott Buell, Perry Oneal, Lawrence Clark, Walter Gartin, Howard Stiers and Norman Schlimmer of Greensburg and Fred Wallace of Oxford enjoyed the delightful affair. A profusion of pink carnations graced the center of the table and spring flowers were used in profusion throughout the home.

Mr. and Mrs. Will Winship entertained with a family dinner yesterday in honor of their daughter Margaret's seventh birthday. The table presented a festive appearance, when a large birthday cake, lighted with tiny candles and an abundance of spring flowers were used as decorations. ## DISSENSION DUE TO MEETING HERE

Esther Griffin White Leaves Franchise League, Alleging She Was "Knifed" at Convention

### BLAMES RICHMOND CROWD

Declares "Dirty Politics" Such as Was Done Here Does Women Cause Immense Harm

Dissension in the ranks of the Wayne County Franchise league, which started in this city when Miss Esther Griffin White of Richmond was deposed as Sixth District chairman of the organization at the meeting a few weeks ago, broke out anew Saturday at the Wayne county convention of the league. While serious rupture is denied by members, Miss White nevertheless announced her withdrawal from the league stating that she was "through with the Franchise League for all time."

At the district meeting held in this city Miss White was never mentioned as a candidate, but she alleges she was "knifed" by the Richmond League. Miss Betsy Edwards of Shelbyville was elected to succeed Miss White and the first intimation that local members of the league had of any trouble came with the announcement by Miss White that she had withdrawn from the league.

Following the close of the meeting at Richmond Saturday Miss White gave out the following statement: "I wish to state, that with the expiration of my term of office as district chairman, May first, I leave the Franchise league for all time. I have so unmistakably been given to understand that the Franchise league wishes to rid itself of me."

"But the Franchise league does not want to be rid of me half so much as I want to be rid of it. While I am through with the Franchise league, I intend to continue my work for suffrage. Dirty politics like this does the cause of woman and of suffrage more harm than all the ravings of the antis or the opposition of the men, and if they ever expect to accomplish any civic good the women will have to get out of this sort of thing."

As district chairman Miss White declared one election of the Wayne county branch illegal and called another meeting. Her opponents checkmated this step by meeting in convention an hour earlier and electing enough delegates to assure the election of Mrs. W. O. Lewis against Mrs. Nellie Barnard, the present incumbent. Then Miss White withdrew.

### LIGHT COMPANY ASKS RATE CHANGE

Muncie Concern Feels Effect of Coal Prices as Set Out in Petition to Commission

#### DESIRES A SLIDING SCALE

(By United Press.) Indianapolis, April 30.—First effect of the high price of coal on the light rates of the state were seen today in a case argued before the public service commission.

The Muncie Electric light company, supplying the cities of Hartford City, Riverside City, Dunkirk, Redkey, Normal City, Shideler and Muncie, has asked the commission to allow it to increase or decrease its rates for service as the price of coal fluctuates.

Attorneys for the company, at the hearing, explained how their prices for service prior to 1916 had been based on the average cost of coal which is the main expense of producing electricity.

### STATE IS AFTER MORE LAND

Additional Ground Needed at Insane Hospital

(By United Press.)

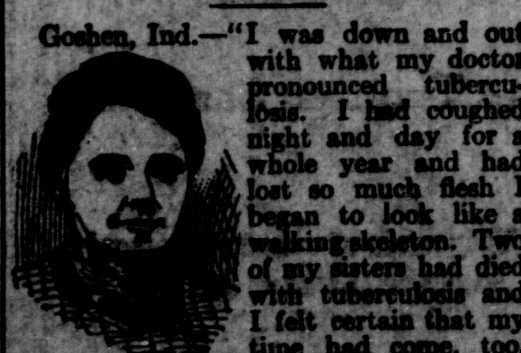

Madison, Ind., April 30.—Gov. Goodrich, accompanied by the legislative committee on state institutions, held a conference here today regarding the acquirement of more land for the Southeastern hospital for the insane. Members of the committee are: Representative McGonagle, of Muncie, and State Senators Walter E. Chambers, Newcastle and Cravens of Madison. The state is planning to acquire a large tract of ground for use as farm land. Following the conference here, the party left for Jeffersonville where matters in connection with the state reformatory were discussed.

### The New Method

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys, hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things.

"The latest and most effective means of overcoming this trouble, is to eat sparingly of meat, drink plenty water between meals and take a single Anuric tablet before each meal for a while," says the famous Dr. Pierce of Buffalo, N. Y. "Simply ask your favorite druggist for Anuric (double strength). If you have lumbago, rheumatism, gout, dropsy, begin immediately with this novel treatment."

### MARVELOUS HERBAL MEDICINE CURES LONG-STANDING COUGH.

Goshen, Ind.—"I was down and out with what my doctor pronounced tuberculosis. I had coughed night and day for a whole year and had lost so much flesh I began to look like a walking skeleton. Two of my sisters had died with tuberculosis and I felt certain that my time had come, too. After the doctor gave me up, a friend recommended Dr. Pierce's Golden Medical Discovery to my husband. The 'Discovery' gave me new strength and vitality right from the start, and in a year's time I was just as strong and hearty as ever. I have never suffered with a deep-backing cough since and it is all due to this treatment. I can do anything now with this strength."

# FLAG IS PRESENTED TO FIRST BAPTIST CHURCH

Continued from Page 1.  
more red by the blood of patriots; the white stripes, made whiter by the tears of women," and commented upon the fact that no star had ever been erased.

In accepting the flag, Mr. Gartin said the Stars and Stripes is the most beautiful emblem that floats in the breeze because it is the American flag. He expressed regret because the newly formed company of state guard troops could not be present since it was desired that the boys who are going from Rush county to protect the flag be honored.

A. L. Gary said that patriotism, which fills the hearts and souls of everybody now, is hard to define because it is like religion—it has to be experienced by the individual. He called attention to the fact that demonstrations do not necessarily mean patriotism because the rabid pro-German might wave a flag and shout for America. He also referred to the fact that of all the countries at war, United States is the only one which has not been defeated at war, has the oldest flag and is the oldest republic.

"We are called upon at this time," continued Mr. Gary, "to do all we possibly can in our respective places. Patriotism consists not only of a willingness to do but the doing of those things which are for the best interests of the country. This is the most momentous war of his-

tory because it is democracy against autocracy.

"There is no doubt about the patriotism of the boys who bear their breasts to the shot and shell of the enemy, but it remains to be seen what the patriotism of those who remain at home amounts to. Experts have told us that the food question will settle the war."

He recalled that Russia was the only ally which can produce enough food for its army and non-combatants so that the burden falls on the United States to feed millions of the people of Europe.

"It is up to us," Mr. Gary said, "to produce more than we ever produced before, consume less than we ever consumed before and waste nothing. We must answer for our wastefulness if we continue to live as we have. A food expert in Europe said that unless United States uses a third less wheat this year, there will not be enough sent abroad to sustain life."

Mr. Gary expressed the belief that enough fruit should be canned this fall from Rush county crops to meet the demands of Rush county people. He spoke of the old practice of "holing" potatoes and cabbage, which had "gone out of date" but which should be revived this winter. Mr. Gary showed how farmers can be just as patriotic as the boys at the front by practicing intensive farming. He also showed how the town resident who has a garden in the back yard can rotate his crops

so as to utilize the ground all summer.

Mr. Gary laid stress on the wastefulness of the average American and declared it to be his opinion that enough was wasted in Rush county in a year to supply an equal number of people for the same length of time. He said the people of the county should can the fruit that in previous years has rotted on the ground in Rush county orchards.

Mr. Gary emphasized that it is not a person's ability to buy but it is a question of using up the supply. He cited the example of James A. Patton, the millionaire who can buy meat or potatoes at any price, but who has two meatless days a week in his home and has planted his beautiful lawn in potatoes.

Dr. Lambert declared the flag had come to mean something more than being the emblem of the United States—that it contained an element of the divine because it is the flag of the people, not the flag of a king, a czar or an emperor. He declared he felt sure the one who put the blue in the flag had some idea of the infinite in so doing.

"It would be a terrible thing," he said, "if Germany should win in this war but she shall not. I believe the principles of our flag shall ever prevail and shall mean the establishment of the divine throughout the world."

The Rev. Mr. Yocum gave a brief history of other flags and showed that the Stars and Stripes is the oldest of all remaining today.

"Congress has passed the conscription bill," he said in conclusion, "and an army of two million men will be raised in a year. There is no turning back now; that cause that will send liberty to the Russian and the German peasant must not be deserted. And back of it all I see the prince of peace. Autocracy and democracy can not join hands in the fraternity of nations. At the end of the war I see the brotherhood of nations that shall make war impossible, and the Stars and Stripes floating forever."

### AN INVESTIGATION URGED

(By United Press.)  
Washington, April 30.—Congress and administration departments today turned to the problem of insuring the allies and the American people of food at fair prices during the war.

Additional legislation placing the nation's food production under the control of Secretary of Agriculture Houston, was introduced in the house and senate.

A preliminary nation-wide investigation by the department is urged in the first joint congressional resolution. The resolution authorizes the secretary of agriculture: "to license and control when necessary, manufacture, storage and distribution of all food, material of feed," and to "compel the licensee to exact only fair prices for all food and grain and to refrain from unjust, discriminatory charges."

## BEALE DIDN'T PLEAD GUILTY

Error Made in Entering the Case on the Court Docket.

The Daily Republican was in error Saturday in stating that John S. Beale pleaded guilty to a charge of gaming. Mr. Beale was not in court and the plea was made by Charles Perkins. In entering the plea on the docket, Judge Sparks unintentionally entered it after the name of Mr. Beale and it showed him pleading guilty. The docket was corrected today. Perkins pleaded guilty to one charge and was fined \$10 and costs and another charge of gaming was dismissed. Mr. Beale has entered no plea.

### HORSE HIT CHARGED RAIL

A horse of the Benson delivery company, driven by Russell Van-Syde, was electrocuted this afternoon when it stepped on a charged rail near the I. & C. power house. Some one had cut and stolen the copper bond at one end of the rail on the "Y" track and the horse hit both rails completing a ground. The amount of "juice" was very small, but it requires very little to kill a horse.

## ALLIES WANT TROOPS IN FRANCE

### Recommend Guardsmen Mobilized be Sent to Front

Urges State Troops Be Ordered To Europe In Small Numbers Aboard Every Ship That Sails So They May Be Trained Within The Sound Of The Big Guns. Assured That They Will Fight Under Their Own Colors As American Units.

#### GOVERNMENT MUST APPROVE PLAN

Allies' Recommendations Intended to Wean This Country Away From Idea of Training at Home

#### CANADIANS A CASE IN POINT

Their Troops Had to Prepare For Fighting For Five Weeks Before They Entered a Battle

By GEORGE R. MARTIN  
(U. P. Staff Correspondent.)

Washington, April 30.—It will be only a matter of a few days before the United States militia companies, now mobilized, are on their way to Europe and less than six weeks before they are actually in battle with the Germans, if the allies' recommendations to the American government today are approved by the administration.

The allies want American troops in batches of several hundred to go at once to Europe aboard every ship that sails. This will obviate the necessity for concentration of enormous numbers of men in any one place and aid in the food and munition problem.

They want National guardsmen who were at the border because they feel these men are equipped by their border work to go at once to the west front and train within the sound of the big guns so they will be tempered for battle by no longer than five weeks.

These American troops, the allies have assured the United States, will fight as American units—under their own colors.

The allies' recommendations were intended to wean this country away from the idea that before American troops go abroad they must be trained here for months. They pointed to the failure of the one and one-half year of training for the Canadian troops.

Canadian troops after this long course were sent to Europe in large numbers and while considered ready to fight, had to go through the five weeks training in the sound of the big guns.

The Woman's Relief Corps presented a flag to the First Baptist church with impressive ceremony yesterday afternoon. The W. R. C. attended in a body. Mrs. Cornelia Lyons made the presentation speech in behalf of the woman's organization and it was accepted by James Gartin for the church.

Short speeches were made by Dr. D. Tra Lambert and the Rev. C. M. Yocum. A. L. Gary made the principal address, emphasizing the need of producing more, consuming less and wasting nothing since the United States is at war with Germany.

The program opened with a march played by Mrs. Ernest Sanders on the piano and the singing of "America" by the audience. The Rev. J. T. Aikin pronounced the invocation and Mr. Stiff, who was visiting here yesterday, made the address of welcome in place of Mrs. Fred Arbuckle. Lois Ethel Steffy read Wilbur D. ### DOUGLAS MORRIS REFUSES TO SERVE

Governor Goodrich Will Have to Appoint Man in His Place on Military Registration Board

#### MEETING OF OFFICIALS TODAY

George B. Moore, Jr., clerk of the circuit court and Voorhees Cavitt, sheriff were in Indianapolis this afternoon, attending a conference of the conscription boards of the various counties with Governor Goodrich. The governor late Saturday named the sheriff and clerk along with some prominent citizen in each county to form the conscription boards, which boards will have charge of the registration of all men as classified in the conscription bill. Judge Douglas Morris was named as the third member of the board for Rush county. Judge Morris found it impossible to serve and wired his resignation to the governor. Judge Morris stated today that he believed the third member of the board should be some one with a knowledge of clerical work as the work attached to this position will call for the classification of the men according to their ages and he did not feel that he could serve for the best interests of the state. It was expected that Governor Goodrich would name his successor today.

### DEBATE ON DRAFT BILL IN PROSPECT

Senator LaFollette Is Ready to Introduce Resolution Calling For a Referendum

#### RULES OF CONGRESS BLAMED

Democratic Senators Will Make Determined Effort to Get Action Immediately on Bill

#### IT PASSES BOTH BRANCHES

Conscription Wins by Overwhelming Majorities But Differences Must be Composed

By ROBERT J. BENDER  
(U. P. Staff Correspondent.)

Washington, April 30.—Rules of congress have precipitated a tangle and again throws the conscription bill into a doubtful state. Forced to vote again on the measure through one of the most unusual parliamentary situations in the history of congress, the senate faces the possibility of prolonged debate on the bill before its passage.

Democratic leaders will make a determined effort to get action immediately and say they are sure of success. Senator LaFollette is the stumbling block. He is ready to introduce his amendment calling for a referendum vote on conscription. It will take an hour to read his amendment and he may devote hours more to a discussion of it. Senator Gronna also has an amendment providing the stopping of grain distribution to breweries and distilleries—and other subjects which may take hours.

The bill today seems in the same position as it was a week ago.

The final roll calls late Saturday night on the selective conscription bill, which passed both branches of congress, brought into line behind the bill many senators and representatives who had fought for the volunteer system until routed by decisive defeat of volunteer amendments earlier in the day in both houses. The senate, which had voted down the volunteer plan, 60 to 18, passed the bill by a vote of 81 to 8. In the house the vote against the volunteer plan was 313 to 109, and that by which the bill itself was passed was 397 to 24.

As passed by the senate, the measure provides for the draft of men between the ages of 21 and 27 years, while in the house measure the age limits are fixed at 21 to 40. This and lesser discrepancies will be thrashed out in conference early this week, so that the bill may be in the hands of the president as quickly as possible. The war department already has completed plans for carrying it into effect.

Both senate and house adopted amendments just before the final roll calls which would greatly increase the pay of enlisted men during the war. The house provision would make their pay \$30 a month and that approved by the senate would fix it at \$29 a month. The present pay is only \$15.

In the house at the last moment Chairman Fitzgerald of the appropriations committee objected vigorously to the appropriation of \$8,000,000,000 carried in the bill for the expenses of the new army, and the section finally was eliminated. The bill as passed by the senate does not contain this provision.

SUFFERING CATS!  
GIVE THIS MAN  
THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like; for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezezone obtained at any drug store will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

TAX-PAYING SEASON  
IS IN ITS LAST LAP

Final Week Begins With Rush Today After Saturday Proves to be Disappointment

## OFFICE TO BE OPEN NIGHTS

The county treasurer's office will remain open Friday and Saturday night of this week and Monday night of next week to give the city people and factory workers an opportunity to pay their taxes. Next Monday night will be the last chance to pay taxes for the spring installment.

The final week of the tax-paying season started this morning with a rush. There is a large sum to be collected. The office will close at five o'clock in the evening and on the three nights that it is to be open will re-open at seven o'clock.

The office is bothered with the usual noon hour rush. This is one of the worst times to pay taxes as the taxpayers believe there will be no rush at this time and naturally create a jam about the doors.

GAINED TWENTY-FIVE  
POUNDS IN TWO  
MONTHS

KNOWING THAT SHE WAS GOING DOWN IN WEIGHT, HEALTH AND ENERGY, THIS LADY FINALLY FOLLOWED THE ADVICE OF FRIENDS AND TOOK PEP-SINCO.

For many years Mrs. G. suffered with indigestion. She could get no help. She doctored and took most every stomach remedy her friends recommended, but got little relief. She lost in weight till she was apparently nothing but skin and bone. What she ate as a rule caused misery and pain. She would bloat and was seldom without headache. Nothing agreed with her. She would get up in the morning with a bad taste coated tongue and feeling of dizziness. The night the odor of savory foods nauseated her. She passed the day in misery and went to bed tired, worn-out and hungry.

This lady read, as you are doing, of Pep-sinco. She heard of Pep-sinco. Her friends used Pep-sinco and were helped, but she thought Pep-sinco was like other stomach remedies, helpful in minor cases only.

She was finally prevailed on to get a small package of Pep-sinco. The first package did her so much good that she continued their use until, after a few weeks, she could eat with a relish ordinary foods.

In exactly two months she came up to her normal weight. Today she is happy and has every reason to be. Her main trouble was indigestion and Pep-sinco is the best preparation to be had for indigestion and related ailments. Pep-sinco will help you, if you have the least trouble with your stomach, your stomach, sick headache, bloating, constipation, biliousness, and heartburn. All symptoms that Pep-sinco will remedy. Don't doubt another minute as to the fact that a small package of Pep-sinco today will do more for you than a large package of any other stomach remedy.

### DEBATE ON DRAFT BILL IS NOW IN PROSPECT

Hands of the secretary of war would make of congress a "mere automaton" and promised that if the action were voted down the committee would provide funds promptly in a separate measure. Among the amendments adopted in the senate was one which would permit Col. Roosevelt to permit a volunteer force for service in France. A similar proposal had been introduced by the house.

the volunteer system, all voted for the draft bill on the final roll call. Republican Leader Mann also was recorded in the affirmative, as was Miss Rankin, who previously had voted with the volunteer advocates. Among the more important amendments adopted in the house was one empowering the president to exempt from the draft in his discretion persons engaged in agricultural work. Another would require each state to furnish a quota of men apportioned according to population, and still another provides that "no bounty shall be paid to induce any person to enlist" and that "no person liable to military service shall hereafter be permitted or allowed to furnish a substitute for such service."

**The Conscription Bill**

Congress has passed the conscription bill. There remains now nothing to be done but the ironing out of differences by a conference committee from both branches. The ages which will be included in the selective draft are yet to be definitely fixed.

The volunteer system failed in the civil war just as it has been proved a failure in the present emergency. At the rate recruits have been responding to the call to the colors, it would have taken two or three years to raise an army of any size. A prolonged campaign for recruits was out of the question. The United States declared war on Germany the sixth of April and an army has to be raised at once.

The whole volunteer scheme is wrong. In a democracy such as ours it is not the place of the patriotic few to do the work of the whole. Many thousands of young men all over the country stood ready to enlist as soon as congress imposed the same obligation on all young men of military age who are physically fit. Mothers and fathers will be resigned to sending their boys to the front when they are assured that their neighbors boys, too, will be obligated to serve their country also. They were never imbued with the idea of having their sons face the cannon's mouth in the defense of the country while other sons of the community remained safely at home.

In a form of government such as ours, all enjoy the blessings of a free country and all should be equally liable to service in defense of the government. The volunteer system penalizes patriotism and puts a premium on "slacking," for the patriot goes to war for \$15 a month and the "slacker" remains at home and earns a living wage.

Since congress has passed the conscription bill, there is sure to be a rush to the colors that will surprise everyone, for each young man will have the satisfaction of knowing that he is not being asked to risk his life while his less patriotic neighbor "slacks" at home. There has been a smoldering resentment of injustice that has held back many a young man who has felt he should go to the defense of his country, but who hesitated because his neighbor, who owes his country the same debt, would remain at

**KEEP LOOKING YOUNG**

It's Easy—If You Know Dr. J. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must keep your liver and bowels—there's no need of having a sallow complexion, dark rings under your eyes, pimples, a bulging look in your face—full eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets are the stimulant for colored men, and are the best medicine for all ailments of the bowels and liver.

home. If we are to fight a war of humanity we should first make it a war of justice to our own, as congress has very justly done. The blood of young Americans is not thinned with water, but they believe in a patriotism that is founded upon justice and that is best exemplified in universal service.

**What Our Ideals Are**

Just at this time there is a grave responsibility resting on the shoulders of the people of the United States. The people of this country are facing some of the greatest problems of their history. We are facing a task that may try our very souls. The fate of the world may turn on whatever action we take. All the inhabitants of the greatest republic in the world need to do is to hold before them constantly the high ideals for which our civilization stands and it will have a share in accomplishing the aims of the government—human safety and human freedom throughout the earth.

We all should remember that the United States is not prosecuting a war of revenge, hatred or conquest, but a struggle for humanity, true to the traditions of the country of George Washington and Abraham Lincoln. When we have established human rights our work will have been completed, but not until then. Only for this have we entered the war; only for this will we contend; but with nothing less than this will we be satisfied.

**A Million Back Yards**

What of your back yard? Is it littered up with refuse, or abandoned to weeds?

Plow it up and plant potatoes or other foodstuffs. It may yield only a dozen bushels or so, and as only one back yard its effect upon the national yield would be but an atom.

But if a million back yards were thus tilled, think of the result! Twelve million bushels or more of potatoes or other foods from back yards alone!

And every available foot of ground, wherever found, should receive the same attention.

The president and the nation are appealing to you personally. Let us of this community answer it with instant action.

What would be more attractive in the front yard than a growing bed of lettuce or onions, or tomatoes or beets, or any one of a dozen articles of food? It would be such a symbol of patriotism as the world has never before seen. And the odd moments would do it.

No, Mr. President, our soldiers will not lack for food. Every loyal American will do his or her duty, and that spirit of production will be in daily evidence right here in Rushville and this community. We never follow—we lead.

A wise boob once remarked that "sooner or later every man reaches his lever." Witness, for instance, the former czar of Russia as an expert shoveler of snow.

Uncle Sam a weak sister? Not a bit of it. Seven billion dollars and only trotting. Wait till we strike a gallop.

"Give us this day our daily bread"—and it may even come to that. Plant something.

There are, though, many kinds of slackers—those in the home, for example.

All the world loves a lover—except the fellow who was jilted.

Hoe up and keep hoeing.

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

**WOMEN URGED TO PRACTICE ECONOMY**

Mrs. McWhirter of Legislative Council Says They Should Raise Standard of Efficiency

**FEWER SOCIAL FUNCTIONS**

(By United Press.)

Indianapolis, April 30.—Women of Indiana were today urged to practice economy in use of foodstuffs, by Mrs. Felix McWhirter, president of the legislative council of Indiana women, in a statement through the United Press. The statement said:

"It is fitting that the Legislative Council of Indiana Women shall raise the standard of efficiency and economy and simplicity of living that will appeal to women of all classes of society.

"The eating of plain food, simply served, less expensive dressing, with fewer social functions, will materially decrease the expense of the home and give real service to the community and the state.

"It is a privilege for us to lend our influence toward making it easier for those who bear the economic burden of the home and to give our sympathetic interest and encouragement to the men upon whom the responsibility of state and national affairs is now resting so heavily."

**WANTS TO BE COMMANDER**

Greensburg Man Seeks Office as Head of G. A. R. in the State

Greensburg, Ind., April 30.—Alonzo Murphy, member of "Pap Thomas" post G. A. R. here is receiving much encouragement in his race for department commander of Indiana and his friends predict that many warm supporters will be lined up for him when the convention assembles May 9 at Indianapolis. Murphy is a native of Indiana and served his country in the famous "Persimmon" brigade in the civil war. He has been a tireless worker for the G. A. R. His friends declare that he is an ideal candidate.

The local post will send a big delegation to boost his candidacy.

**KEEP YOUNG**

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Rushville case:

A. M. Younger, retired farmer, 828 W. Tenth St., Rushville, says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is bound to have more or less trouble with the kidneys. At times I have a dull ache across the small of my back and it gets weak and lame. Then the kidney secretions are too frequent in passage, causing me to get up at night. Every time I have been this way, I have procured a box of Doan's Kidney Pills at Johnson's Drug Store, and they never fail to relieve me in a short time."

**LOCAL DOCTORS GET A REPRIMAND**

Dr. J. N. Hurty Writes to County Health Commissioner, Noting Births Are Not Reported

MARCH RATE 15.6 PER 1,000

This Indicates, State Official Says, That Physicians Are Derelict in Their Duty

Rush county physicians are given a severe reprimand in a letter received today from Dr. J. N. Hurty, secretary of the state board of health, by Dr. Will C. Smith, county health commissioner. Dr. Hurty says there is every reason to believe that all the births in Rush county were not reported in March because the rate was only 15.6 per thousand. He calls attention to the state law compelling the doctors to report deaths, and to the duty of the physician to the parents, in the following letter:

Your birth rate in March was 15.6 per 1,000. This is under 20, and it is almost an invariable sign that all the births of your county were not collected for that month. This matter must be spurred up. It must not be allowed to rest. Indiana will be in disgrace with the U. S. Census unless we can show that we collect 90 per cent. of all births. If the physicians of the state of Indiana bring disgrace upon the state, and we are published as being delinquent, then let the sin lie where it belongs.

The physician who does not promptly report the births he attends violates the confidence of his patients and the duty he owes to them, and he also violates the duties he owes to the science of medicine.

You must put forth stronger efforts to collect births. Discuss this matter with the editors of your papers, also with the physicians of your county. It should be your endeavor to spread throughout your county the information that the legal reporting of births is of the utmost importance to the state and also to medical science.

Don't let this matter drop. Call up physicians by telephone and ask them about the births they attend. Tell them the state will be published if better birth records are not supplied. It will not sound very well for the medical profession if the papers all over the country state that the physicians of Indiana are derelict in their duty, yet the U. S. Bureau will certainly do this very thing if better birth reports are not secured.

**PRICE OF STAMPS WILL GO HIGHER**

Two-Cent Denomination Will be Raised to Three Cents to Raise Money for War Purposes

NEW BILL ALREADY DRAFTED

Income Tax Exemption Will be Lowered so Majority of Men in County Will be Hit By It

"Give me a two-cent stamp," says the man who calls at the stamp window in the postoffice a few weeks hence.

"All right, but a two-cent stamp will cost you three cents," replies the man on the other side of the grating.

This is a possibility of the near future in view of the fact that the subcommittee of the ways and means committee of the national house of representatives has included an increase of one cent on two-cent stamps in its war revenue bill which it has drafted and will present to the full committee next week. It is possible, Washington dispatches say, the committee will report the bill to the house the latter part of next week and that it will be unanimously indorsed by both democratic and republican members.

The Chamber of Commerce of the United States of America has sent out a protest against the increase in the price of the two-cent stamps and has suggested substitutes to raise the same amount of revenue. The national organization is conducting a referendum but there will be no way for Rush county citizens to register a protest in an organized fashion because the Rush County Chamber of Commerce has been supplanted by another organization.

The house subcommittee was confronted with the task of levying taxes to provide \$1,500,000,000 in a single year above the ordinary taxes, which are already much higher than usual. The most important tax will be on business. The net result of a week's investigation has been the decision to levy only one tax on business in place of all three forms of taxes now being levied. This is the excess profits tax and it will be levied so as to reach all corporations, firms, co-partnerships and other forms of organization.

None will affect the common people more than the increase of the price of the two cent postage stamp. Second class matter will cost three cents a pound instead of one cent as at present, which will hit the newspaper and magazine publishers. This will bring in a revenue of about \$75,000,000 a year.

The income tax exemptions will be reduced so that it will include the majority of the men in Rush county. For the single man the exemption will be only \$1,000 a year and for the married man, \$1,500 a year. This means that the single man earning more than \$1,000 a year will have to pay a two per cent tax on his income and the married man who makes more than \$1,500 a like per cent. The normal tax will be four per cent on incomes of \$50,000 or more and the highest tax will be near forty per cent on incomes of a million or more.

New automobiles will be taxed at the factory according to their selling price. The only way in which present automobile owners will be taxed will be through a consumption tax on gasoline. This may go as high as 1 cent on a gallon.

Stamp taxes will be assessed on many things, including negotiable instruments, many legal documents, cosmetics, candy, chewing gum, toilet waters and perfumes, patent medicines, staple drugs and the like.

Bank checks probably will be exempted from this tax. Representative Dixon, of Indiana, and other members of the committee oppose a stamp tax on bank checks. No breakfast table taxes will be assessed. Taxes had been proposed on sugar, tea, coffee, etc., but these have been eliminated.

Freight transportation will be assessed heavily, as will transportation tickets of all sorts, including Pullman.

**Mrs. Kern's Advice To Weak, Nervous, Run-Down Women**

So. Cumberland, Md.—"For a long time I suffered from a nervous break-down. I could not eat or sleep and was so weak I could hardly walk. My husband heard about Vinol and got me to try it. Now I have a good appetite, sleep soundly and am well and strong. Every nervous, weak, run-down woman should try Vinol.—Mrs. D. W. KERNS.

We guarantee Vinol to create a healthy appetite, aid digestion and make pure healthy blood. F. B. Johnson and Co., Druggists, Rushville, also at the leading drug store in all Indiana towns.—(Adv.)

Liquor will pay a heavy toll. Whiskey is now assessed \$1.10 a gallon and probably will pay \$2 a gallon in the future. Beer is now assessed \$1.50 a barrel and probably will pay \$2.50 a barrel.

Soft drinks will have to pay a tax. This concerns chiefly bottled drinks and probably will not apply to unbottled soda fountain products. Cigarettes, cigars and tobaccos in all forms will be hit by the cost of war. Cigarettes will get it heavily and cigars will pay their share.

Musical instruments of all sorts will be taxed at the factory and glucose, a large element in some kinds of candy, will cost more after the new tax is levied in it.

## DISSENSION DUE TO MEETING HERE

Esther Griffin White Leaves Franchise League, Alleging She Was "Knifed" at Convention

### BLAMES RICHMOND CROWD

Declares "Dirty Politics" Such as Was Done Here Does Women Cause Immense Harm

Dissension in the ranks of the Wayne County Franchise league, which started in this city when Miss Esther Griffin White of Richmond was deposed as Sixth District chairman of the organization at the meeting a few weeks ago, broke out anew Saturday at the Wayne county convention of the league. While serious rupture is denied by members, Miss White nevertheless announced her withdrawal from the league stating that she was "through with the Franchise League for all time."

At the district meeting held in this city Miss White was never mentioned as a candidate, but she alleges she was "knifed" by the Richmond League. Miss Betsy Edwards of Shelbyville was elected to succeed Miss White and the first intimation that local members of the league had of any trouble came with the announcement by Miss White that she had withdrawn from the league. Following the close of the meeting at Richmond Saturday Miss White gave out the following statement: "I wish to state, that with the expiration of my term of office as district chairman, May first, I leave the Franchise league for all time. I have so unmistakably been given to understand that the Franchise league wishes to rid itself of me."

"But the Franchise league does not want to be rid of me half so much as I want to be rid of it. While I am through with the Franchise league, I intend to continue my work for suffrage. Dirty politics like this does the cause of woman and of suffrage more harm than all the ravings of the antis or the opposition of the men, and if they ever expect to accomplish any civic good the women will have to get out of this sort of thing." As district chairman Miss White declared one election of the Wayne county branch illegal and called another meeting. Her opponents checkmated this step by meeting in convention an hour earlier and electing enough delegates to assure the election of Mrs. W. O. Lewis against Mrs. Nellie Barnard, the present incumbent. Then Miss White withdrew.

In honor of their daughter Helen's sixth birthday, Mr. and Mrs. Ed Bishop entertained twenty friends and relatives at dinner yesterday. # FLAG IS PRESENTED TO FIRST BAPTIST CHURCH

Continued from Page 1.

more red by the blood of patriots; the white stripes, made whiter by the tears of women," and commented upon the fact that no star had ever been erased.

In accepting the flag, Mr. Gartin said the Stars and Stripes is the most beautiful emblem that floats in the breeze because it is the American flag. He expressed regret because the newly formed company of state guard troops could not be present since it was desired that the boys who are going from Rush county to protect the flag be honored.

A. L. Gary said that patriotism, which fills the hearts and souls of everybody now, is hard to define because it is like religion—it has to be experienced by the individual. He called attention to the fact that demonstrations do not necessarily mean patriotism because the rabid pro-German might wave a flag and shout for America. He also referred to the fact that of all the countries at war, United States is the only one which has not been defeated at war, has the oldest flag and is the oldest republic.

"We are called upon at this time," continued Mr. Gary, "to do all we possibly can in our respective places. Patriotism consists not only of a willingness to do but the doing of those things which are for the best interests of the country. This is the most momentous war of his-

tory because it is democracy against autocracy.

"There is no doubt about the patriotism of the boys who bear their breasts to the shot and shell of the enemy, but it remains to be seen what the patriotism of those who remain at home amounts to. Experts have told us that the food question will settle the war."

He recalled that Russia was the only ally which can produce enough food for its army and non-combatants so that the burden falls on the United States to feed millions of the people of Europe.

"It is up to us," Mr. Gary said, "to produce more than we ever produced before, consume less than we ever consumed before and waste nothing. We must answer for our wastefulness if we continue to live as we have. A food expert in Europe said that unless United States uses a third less wheat this year, there will not be enough sent abroad to sustain life."

Mr. Gary expressed the belief that enough fruit should be canned this fall from Rush county crops to meet the demands of Rush county people. He spoke of the old practice of "holing" potatoes and cabbage, which had "gone out of date" but which should be revived this winter. Mr. Gary showed how farmers can be just as patriotic as the boys at the front by practicing intensive farming. He also showed how the town resident who has a garden in the back yard can rotate his crops

so as to utilize the ground all summer.

Mr. Gary laid stress on the wastefulness of the average American and declared it to be his opinion that enough was wasted in Rush county in a year to supply an equal number of people for the same length of time. He said the people of the county should can the fruit that in previous years has rotted on the ground in Rush county orchards.

Mr. Gary emphasized that it is not a person's ability to buy but it is a question of using up the supply. He cited the example of James A. Patton, the millionaire, who can buy meat or potatoes at any price, but who has two meatless days a week in his home and has planted his beautiful lawn in potatoes.

Dr. Lambert declared the flag had come to mean something more than being the emblem of the United States—that it contained an element of the divine because it is the flag of the people, not the flag of a king, a czar or an emperor. He declared he felt sure the one who put the blue in the flag had some idea of the infinite in so doing.

"It would be a terrible thing," he said, "if Germany should win in this war but she shall not. I believe the principles of our flag shall ever prevail and shall mean the establishment of the divine throughout the world."

The Rev. Mr. Yocum gave a brief history of other flags and showed that the Stars and Stripes is the oldest of all remaining today.

"Congress has passed the conscription bill," he said in conclusion, "and an army of two million men will be raised in a year. There is no turning back now; that cause that will send liberty to the Russian and the German peasant must not be deserted. And back of it all I see the prince of peace. Autocracy and democracy can not join hands in the fraternity of nations. At the end of the war I see the brotherhood of nations that shall make war impossible, and the Stars and Stripes floating forever."

## TO INSURE FAIR FOOD PRICES DURING WAR

Legislation to Place Production Under Control of Government Introduced in Congress.

### AN INVESTIGATION URGED

(By United Press.)

Washington, April 30.—Congress and administration departments today turned to the problem of insuring the allies and the American people of food at fair prices during the war.

Additional legislation placing the nation's food production under the control of Secretary of Agriculture Houston, was introduced in the house and senate.

A preliminary nation-wide investigation by the department is urged in the first joint congressional resolution. The resolution authorizes the secretary of agriculture "to license and control when necessary, manufacture, storage and distribution of all food, material of feed," and to "compel the licensee to exact only fair prices for all food and grain and to refrain from unjust, discriminatory charges."
